

K-LOVE is a wonderful positive station that provides an alternative to hip-hop and rock music. I feel our community would decline if K-LOVE was not available to us because there would be no positive music for me and my family and the people around us to listen to. In this day and age, our world needs good christian music to listen to. The words and messages in most modern day music is graphic and sexual and it concerns me as a parent and grandparent. Please keep K-LOVE on the air in Oklahoma City, OK.
